

Planets

Short Stack

I'm reaching out
I'm reaching out
I'm reaching out to get to you Sweetheart here's the sweet part
It's 5am and your lips are still amazing
But they can't stop, me from falling
Off the rooftop singing What planet are you from?
And are all the lights on?
I don't know how to talk to you
And where did you come from?
What planet are you on?
I can't believe the things you do I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
I'm reaching out to get to you
I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
I think I'm on the same planet as you Stop now, here's the breakdown
Let's leave this town
In the place of ill intentions
Hail the cop cars, sound the alarms
But they're too damn late
Boom, boom, baby. What planet are you from?
And are all the lights on?
I don't know how to talk to you
And where did you come from?
What planet are you on?
I can't believe the things you do I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
(Hold on)
I'm reaching out to get to you
I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
I think I'm on the same planet as you
I think I'm on the same planet as you Sweetheart I'm here for you
To see your pretty face
I'd defy all the stars
To capture your embrace
Sweetheart I'm holding out
Sweetheart we're pulling through
Sweetheart I'm reaching out

Only to get to you
Only to get to you
Only to get to you
Oh What planet are you from?
And are all the lights on?
I don't know how to talk to you
And where did you come from?
What planet are you on?
I can't believe the things you do I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
(Hold on)
I'm reaching out to get to you
I'm reaching out (I'm reaching out)
I'm reaching out (I'm reaching out)
I think I'm on the same planet as you (Woahoo)
I think I'm on the same planet as you
(I'm reaching out)
I think I'm on the same planet as you
