

Just in Time

Jason Lancaster

And please bring me down from this awful suspense
And tell me about everything that I've missed
'Cause I'm wasting time every second not kissed
By this girl that I've found who keeps hope on her lips
And I believe the world keeps its heart on her sleeve
I'd love to tell her things but my tongue catches me
Then I toss around ideas that maybe someday she'll let me
Be the chest that she rests on when she's done walking in her sleep
Because I would not let go and there are some things I just know Like I will lift you up and baby I will build you
up
'Cause I could never try enough
To show you I can be the love
We're not hiding from this time
And if it all falls down
Just let me be here, let my arms surround
And let me say how I'm so sure I've found
A place for you to wear your crown
A place where our names rhyme
And it is all because you found me just in time So please don't change a thing for me you love about yourself
And say you'll let me hold the things you don't
'Cause I've been here and waiting on some things to change for far too long
And I hope that you'll just know That I will lift you up and baby I will build you up
Because I could never try enough
To show you I can be the love
We're not hiding from this time
And if it all falls down
Just let me be here, let my arms surround
And let me say how I'm so sure I've found
A place for you to wear your crown
A place where our names rhyme
And it is all because you found me just in
All because you found me just in
All because you found me just in time
