

Insane

The Word Alive

No matter the pain we hide inside
We all struggle just to feel alive
It's harder to see the light up ahead
When you find yourself helpless

Now let our voices be the change
So we don't all end up the same
I can't help but feel this way
Let's raise our flags to the new way
We're all insane, in a beautiful way
We won't change, until the tide comes
The tide comes

You'll never be more than what they say
unless you stand and face the hate
Always aware of where you came
Lead those around you unafraid

Now let our voices be the change
So we don't all end up the same
I can't help but feel this way
Let's raise our flags to the new way
We're all insane, in a beautiful way
We won't change, until the tide comes
The tide comes

We're all insane, in a beautiful way
We won't change, until the tide comes and pulls us all away

We're all insane
(We're all insane)

We're all insane, in a beautiful way
We won't change, until the tide comes
The tide comes

We're all insane, in a beautiful way
We won't change, until the tide comes
The tide comes
(We're all insane)

We're all insane, in a beautiful way
(We're all insane)
We won't change, until the tide comes and pulls us all away
