

Try

The xx

We bide our time
Though the time is fine
Oh to be there, I can be there
say you'll be there
You know the way I can't resist you
I say to myself, I try
Why do we waste time?
Hiding it inside
I want you to be mine
Now it's burning gone
You say what you would have done
You wouldn't have been there
I wish you'd been there
I needed you there
And if we try once more
Would you give me it all?
I won't believe it
Till I can feel it, can you feel it?
You know the way I can't resist you
I say to myself I try
