

change of heart

Tops

all a sudden change of heart
you don't see what you used to see
a girl you've known forever now
is suddenly your fantasy
used to be another way
you could talk to her about anything, it's bad
you don't know how she feels
so bad
change of heartwasting, wasting a chance you're chasing
why you so afraid to face it?
acting like the girl's a ghost
wishing, what you want, apparition?
cloudy is your current condition
change of heartwonder why you shy away
she wants to be your friend
she thinks you're mad
girl you know is turning back
change of heartwasting, wasting a chance you're chasing
why you so afraid to face it?
