

Draw Me A Circle

Barbra Streisand

Draw me a circle that's perfectly round
One curving line, simple and fine
Now add two ears and a lopsided nose
And if you care, add some hair
Now draw two eyes and make them bright
Because they've just seen a beautiful sight
Sketch in a mouth with a radiant grin
One coming deep from within
You've drawn me a circle and now that you're through
It's a picture of me after being with you
