## Veil of Maya

Have faith and you won't be left behind  
Haunted by the thoughts of a failed life  
Self realize

There's a message embedded in my mind  
I see it over and over  
Every time that I shut my eyes  
I am finally awake  
This is the end of a nightmare

This is the end  
I am finally awake  
This is the end of a nightmare

This is the end  
We will live  
And forgive the mistakes they've made  
Surrounded with trust  
We won't make the same

Self realize  
I am finally awake  
Self realize  
I am finally awake  
We fill with hope  
I am finally awake  
This is the end of a nightmare

Haunted by the thoughts of a failed life  
Leave behind the thoughts of a failed life  
This is the end

We will live and forgive the mistakes they've made  
Surrounded with trust  
We won't make the same

Self realize  
I am finally awake  
Self realize  
I am finally awake

Our lives will fill with hope  
I am finally awake  
They've only foreshadowed our own

Have faith and you won't be left behind

Until our guidance  
Until our guidance is that alone  
Until our guidance  
Until our guidance is that alone  
Until our guidance  
Until our guidance is that alone  
Until our guidance  
Until our guidance is that alone
