Run to Me

Smokie

In the night, lonely lonely night
You wonder were your dreams are gone
If you find nothing in your mind to help you carry onWrite and read, your only company
When you can't find a friendI'll kept holding on forever
'Cause I'm living for the day when you come back again
So darlingRun to me and I'll pretend
A love like ours should never end
And you should know, I'll never let you downWhenever you're in trouble
You can run to me, forget your pride
My broken heart, I'll try to hide
So if you need my love and sympathy
You run to meShould it be, you lose your destiny
There's no one there to comfort you
And in the end find you need a friend to tell your troubles toIs it right to sit here every night
And think how it used to beLive some days you should remember
And you wish you could come back, come running home to me
Oh, darlingRun to me and I'll pretend
A love like ours should never end
And you should know, I'll never let you downWhenever you're in trouble
You can run to me, forget your pride
My broken heart, I'll try to hide
So if you need my love and sympathy
You run to me
You run to me, run to me
