

# After the Flesh

## My Life with the Thrill Kill Kult

I am the new way to go, I am the way of the future  
I am the new way to go, I am the way of the future  
There's a lot of innocent people being crucified  
You things, things, things of the flesh do it slow  
Down avenues fuck me lust my eyes  
Licking lips, encouraging Mr. Careworn  
To gaze upon a screen bask on after the flesh  
We'll infect your carnal mind after the flesh I am the way of the future  
They blew his brains out at gunpoint  
I am the way of the future  
Get in and fasten your seatbelt We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, after the flesh I walked through forests with ugly spirits  
Kissed their feet and found them calm, calm, calm  
Still I don't have any money, money, money, money  
My body suffers after the flesh I am the way of the future  
They blew his brains out at gunpoint  
I am the way of the future  
Get in and fasten your seatbelt We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, mind, mind, mind  
We'll infect your carnal mind, after the flesh I walked through forests with ugly spirits  
Kissed their feet and found them calm, calm, calm  
Still I don't have any money, money, money, money  
My body suffers after the flesh I am the way of the future  
They blew his brains out at gunpoint  
I am the way of the future  
Get in and fasten your seatbelt I am the way of the future
