Getting Better

The Valentines

Getting better, getting better... (Repeated)Sometimes I feel like I can fly
You take my hand and I electrify
Your smile is driving me insane
You are my sun, my moon, my rainCause makes me feel like loving you
And I know, it keeps on getting better
That the skies have turned to blue
Yes I know, it keeps on getting betterMakes me feel like loving you
And I know, it keeps on getting better
Now the skies have turned to blue
Yes I know, it keeps on getting betterGetting better, getting better... (Repeated)Sometimes I feel like I can fly
You take my hand and I electrify
Your smile is driving me insane
You are my sun, my moon, my rainCause makes me feel like loving you
And I know, it keeps on getting better
now the skies have turned to blue
Yes I know, it keeps on getting betterGetting better, getting better... (Repeated)Makes me feel like loving you
And I know, it keeps on getting better
That the skies have turned to blue
Yes I know, it keeps on getting better
