

# You Were Mine (From "the Bold and the Beautiful")

[Sonia Rao](#)

It's unusual as we travel through life  
Out of all of these paths you crossed mine  
Yeah you taught me to love, that we change and we grow  
So let's take life on a journey down a long road

You never know where life will take you  
You never know who you might find  
No one said we would walk forever  
Every step I still remember  
Even if today is just one moment in time  
When you were mine, when you were mine

I've been here before, so many times before, oh  
But as hard as I try I can't let you go  
So tired of being lost, oh and I want to be found  
So from this day on I'm going to live in the now

You never know where life will take you  
You never know who you might find  
No one said we would walk forever  
Every step I still remember  
Even if today is just one moment in time  
When you were mine, when you were mine

Nothing that I wouldn't do  
To stop my heart from finding you

Oh, you never know where life will take you  
You never know who you might find  
No one said we would walk forever  
Every step I still remember  
Even if today is just one moment in time  
When you were mine, when you were mine  
When you were mine, when you were mine
