I Love Everybody

Lyle Lovett

I love everybody
Especially you
I love everybody
Especially you
So if you feel lonesome
Remember it's true
I love everybody
Especially you
It's not the long lashes
Or lips on your face
And it's not your bosoms
That time can't erase

And it's not those long slender
Legs on your feet
Your mind is the feature
That makes me remember
I love everybody
Especially you
I love everybody
Especially you
So if you feel lonesome
Remember it's true
I love everybody
Especially you
