

Way Too Deep

Grabbitz

I see the storm come rolling in
You don't know me like you say you do
Will I run and find myself
Or will I bite the dust and stay with you

You can help me breathe
But only if I let you
I wanna let you win
But easily forget you
Try to settle down
Try to worry less
Let's only face the eye
I hold you in my chest

All my life
I've been so cold
I break the airplanes
And watch time unfold
And I tried to make it back
In this regency
Because I'm way too deep
Cause I'm way too deep
Cause I'm way too deep
Cause I'm way too deep

Now my walls come closing in
Cause I just lost my friends so close to me
Just the happiness and faith
What the hell is that supposed to mean to me

When everything is gray
Nothing is in color
Believe me when I say
I'm not like the other
I tried to settle down
And tried to get some rest
You leave with open eyes
Can you press my chest

All my life

Iâ€™ve been so cold
I break the airoplanes
And watch time unfold
And I tried to make it back
In this regency
Because Iâ€™m way too deep

All my life
Iâ€™ve been so cold
I break the airoplanes
And watch time unfold
And I tried to make it back
In this regency
Because Iâ€™m way too deep
â€™Cause Iâ€™m way tooâ€™

All my life
Iâ€™ve been so cold
I break the airoplanes
And watch time unfold
And I tried to make it better
In this regency
Because Iâ€™m way too deep
â€™Cause Iâ€™m way too deep
