

# Something's Wrong

## Shock Treatment

When your pubic hair's on fire, something's wrong  
When you think you're the Messiah, something's wrong  
You mistake a plane for Venus, something's wrong  
When your girlfriend's got a penis, something's wrong, something's wrongSomething's wrong  
Something's wrongWhen you like music more than life, something's wrong  
You start sleeping as you drive, something's wrong  
When your favorite drink is thinner, something's wrong  
When you're proud to be a sinner, something's wrong, something's wrongSomething's wrong  
Something's wrongWhen a canary drives a tractor, something's wrong  
When your president's an actor, something's wrong  
When your jacket's plagued with dandruff, something's wrong  
If you think that this song matters, something's wrong, something's wrongSomething's wrong  
Something's wrongSomething's wrong  
Something's wrong  
Something's wrong  
Something's wrong
