

# I Can't Forget You

## Cracker

Gold summer wheat  
It sways in the breeze  
Till it fades in the autumn to brownCool summer grass  
It beckons and calls  
And I lie here with you in my heartI can't forget you  
I can't forget you  
I can't forget you  
At allBirds take to the sky  
They never alight  
They circle around foreverNow I tried but I failed  
To hide and disguise  
This one simple sentimentI can't forget you  
I can't forget you  
I can't forget you  
At allI can't forget you  
I can't forget you  
I can't forget you  
At all, no no
