

# Studio Lovin'

Wiz Khalifa

Girl let me take you to my studio  
Give you everything you want and need  
Lay you flat like a piano  
If you let me stroke your keys  
You going be saying things you never said  
Matter fact you going be playing melodies you never played  
We aint' in no bed,  
We in the lab  
And I'm reclining in my seat  
You can just climb on top of me and ride me like this beat  
You say you need this (loving)  
Well Imma grab your waste line,  
And if you like it deep,  
I could hit you with that baseline  
I ain't tryin' to waste time  
For me and your sake  
Plus I'm payin' for this session  
I need more than one take  
I make the boards shake like how I'm suppose to  
I'll have you sounding good  
Lil ma, I got them pro tunes  
Now you in the mood  
I got you doing this and tryin' that  
Beating in your drum  
While I'm playing with your high hat  
You like that  
So you don't want to, I just make you do it  
Got you in love,  
Cause when we fuck its like we making music, go n' lose it I don't want to be unusual  
But there's a lot of things that I can see me doing to you.  
Up in my studio oh oh, oh oh, oh oh, oh yea.  
You say you probably work tomorrow, you can make it though,  
And even thought there's probably other places we can go,  
We in my studio, oh oh, oh oh, oh oh, oh yea And no, it ain't gon' stop  
I keep this song on replay  
Puttin' all them scratches on my back  
I'm like go D.J.  
Be my guitar  
I'll pluck your g-string

Pull it to the side  
Imma make them vocals drop  
I'm grippin' on your thighs  
We tangled like some cables  
From the front look in your eyes  
Then I turn you like some pables  
No you fiendin' for this (loving)  
That's what you gon' get  
And I cant sing, but I see you  
And know I'm gon' hit, yea  
Lets do the verses now  
Worry about the beat later  
Heard you be going off that head  
You don't need paper  
Play you an e-major, a-minor  
Girl your rhythm straight  
And I say you got great timing  
Feel your heart rate climbing  
Like when my speakers quake  
More than a quayer straight  
You got that 8-o-a  
You say you cant  
But I do something that just make you do it  
Me and you don't fuck  
We make music, yea I don't want to be unusual  
But there's a lot of things that I can see me doing to you.  
Up in my studio oh oh, oh oh, oh oh, oh yea.  
You say you probably work tomorrow, you can make it though,  
And even thought there's probably other places we can go,  
We in my studio, oh oh, oh oh, oh oh, oh yea
