Clean

David Yazbek

My fear is clean
like the wings
of the westbound plane
but the ground is above
and the rain is below
and I'll bet the rain
is the same on the house
down there
and I won't be back anymore
-- be back anymore
My fear is clean

I left the house in the car
with the bad back wheel
and the dead President's
got his name on the road
and they put the same fellow's name
on the landing field
'cause he won't be back anymore
-- be back anymore
My fear is clean

You can fly and fall and dangle
like a dolly on a string
You can choose your room and walls
then move the whole damn thing
You can join the jet-set
bite the big balloon
but then you get
the taste of ozone
and you're never coming back
My fear is clean

Like the window's closed
so I pack up the car
and I lay down the law
and I see the wheel
dig a track in the hayseed road
and I won't be back anymore

-- be back anymore
