Infernal Maze

Stratovarius

You faded away
And woe is all that remains
And I have gone astray
My mind full of fury instead
I'm carrying a seed of insanity
A burden of faded memoriesDelusion, destruction, salvation
Go on without sayingHate in this creed
Awareness so numb this time
Underneath the skin
You're still drooling inAnd what I've come to find
A state of mind
I need to find a way to carry
For my soul will once again be freeBut first I need to bare it insteadInfernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your name
Infernal mazeInfernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your nameInfernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your name
Infernal mazeThese demons, these demons
Haunting me, infernal maze
Infernal maze
Infernal maze
