# I Wanna Know

## The Foreign Exchange

Okay, you can blame it all on me tonight
Don't wanna walk away, tonight I'll be the bigger man
You just keep on trying to push me away
But I'm not leaving, we got so far to go(I wanna know)
You'll believe and me and keep away your pride
(I wanna know)
'Cause I can't imagine you not by my side
(I wanna know)That you'll share with me your hopes and all your dreams
Cause baby, I love you for loving me, so glad I found you babe
So thankful for your ways, it's such a blessing
To love and be loved, in return I tried to keep myself from youBut now I finally see the truth, can't nobody love me like you do
Every time that I think about, our love and everything we shared
I'll never leave never let you down
'Cause I know that you'll always be thereEverybody's talking about us and what they saying
They don't believe that we're gonna make it
But I still believe in you
You'll believe and me and keep away your pride(I wanna know)
'Cause I can't imagine you not by my side
(I wanna know)
That you'll share with me your hopes and all your dreams
(I wanna know)'Cause baby, I love you for loving me
Wanna thank you babe, for always loving me loving me
Said thank you babe, always loving me
Don't know what I'd do(I wanna know)
You'll believe and me and keep away your pride
(I wanna know)
'Cause I can't imagine you not by my side
(I wanna know)That you'll share with me your hopes and all your dreams
'Cause baby, I love you for loving me
Okay, you can blame it all on me tonight
