

# Dance Away

**Barry Manilow**

Dance away dance away I saw you in the shadows  
You were actin' so free  
I knew the last thing on your mind was me I could hear the laughter  
And from that moment after  
Girl, you had my pride down on its knee Who does your night belong to  
Now that I'm gone  
Does he call you baby, all night long Who does your night belong to  
Who is the one you turn to  
Are you dancin' to our favorite song Dance away, it's only my mind you're takin'  
Dance away, it's only my heart you're breaking  
If I've lost my touch  
Go on and give unsatisfied  
My need for you is very much alive I can make it on my own  
My love will survive  
I will find someone to get me by  
But I'll be left with feelin's  
That will go unsatisfied  
My need for you is very much alive Dance away, it's only my mind you're takin'  
Dance away, it's only my heart you're breaking  
If I've lost my touch  
Go on and give me up  
And dance my love away
