

# Flatline

## Aphasia

Breathe in don't flatline  
Breathe in don't flatlineDon't rain on my... don't rain on my...  
I've gone back and forth  
On the decision to stay put or leave on a dime  
How quickly life seems to change for us, for usBreathe in don't flatline  
The choice is mine to live my life  
So breathe in don't flatlineDon't rain on my... don't rain on my...  
I've gone back and forth  
On the decision to stay put or leave on a dime  
How quickly life seems to change for us, for us, for usBreathe in don't flatline  
The choice is mine to live my life  
So breathe in don't flatline  
If I leave now, if I leave now  
There's so much more that I could find  
So breathe in don't flatlineHow will I know if Im in control?  
I'll never know until I let goBreathe in don't flatline  
The choice is mine to live my life  
So breathe in don't flatline  
If I leave now, if I leave now  
Theres so much more that I could find  
So breathe in don't flatlineI wont waste my time, Ive made my mind  
And just like that I'm making the hardest decision  
That I'll ever have to make
