# Kiss The Sky

## Solisia

Please, won't you ride with me?
Don't you know that things will be okay?
Please won't you glide with me?
Spread our wings and things will be okayKiss it away, kiss it away, tomorrow
Wash it away, wash it away, rain
Wish it away, wish it away, the sorrow
Tomorrow, tomorrowWe can fly and kiss the sky if we try
We'll find the place that love goes
We can fly, stay so high, kiss the sky
We'll find the place that love growsSqueeze every drop from me
Stay with me and see the lovers climb
Kiss it away, kiss it away tomorrow
Wash it away, wash it away, where we've been
But wish it away, wish it away, the sorrow
Tomorrow comes todayBut we can fly and kiss the sky if we try
We'll find the place that love goes
We can fly, stay so high, kiss the sky
We'll find the place that love growsWe can fly and kiss the sky if we try
We'll find the place that love goes
We can fly, stay so high, kiss the sky
We'll find the place that love growsWe can fly, stay so high, kiss the sky
We'll find the place that love grows
We can fly, stay so high, kiss the sky
We'll find the place that love growsWe can fly, stay so high
