

Right Off Rampart Street

Chuck Berry

Way down south in Louisiana, up under the Delta heat, child
There's an old boy plays an electric guitar right off Rampart Street
Sometimes a Go-Go girl come in with him,
she be shakin' out a Mojo beat
That old boy sure pick some old mean guitar right off Rampart Street
Stays crowded every time he's there,
people come there from near and far
I don't think nobody knows his name, they just know it's a Go-Go guitar
They just know it's a Go-Go guitar
Way down south in Louisiana, up under the Delta heat, child
Go see that old boy play his guitar right off Rampart Street
Right off Rampart Street
