

Man Needs Woman

Bad Company

Hot damn, I'm down on my knees
I want to love someone please me
Come on baby I want to be in love again
Lonely nights give me the blues
I've had enough of loving and losing
Come on baby and hit me like a hurricane
Every man needs a woman
Every woman needs a man
Do my best to try to make you understand
Bad luck don't get in my way
Pretty woman you can save me, yeah
Come on baby and take me up to heaven above
Treat me right give me a chance
I'm looking for a sweet romance
Come on baby and hit me like a hurricane
Every man needs a woman
Every woman needs a man
Do my best to try to make you understand
Hit me, hit me
Come on baby
Hot damn, I'm down on my knees
I want to love someone please me
Come on baby I want to be in love again
Now every man needs a woman
Every woman needs a man
Do my best to try to make you understand
Every man needs a woman
Every woman needs a man
Do my best to try to make you understand
Every man needs a woman
Every woman needs a man
I'll do my best to try to make you understand
Every man needs a woman
Every woman needs a man
I'll do my best to try to make you understand, yeah
Treat me right
I wanna be in love again
