

Jolene

Jeremy Fisher

The sun so high and lonely burst into flame
I was her one and only, she was my same[Chorus]
 Don't cry for me Jolene
 Wipe your tears away
 Been an orphan since I was born and
 I been dyin' since that dayI chase her west for hours, she slips away
 Long dark clouds come between us, she cries like rain[Chorus]On and on I will run
If I can keep up with you I'll stay young foreverWhen I got to California, she dropped in the ocean
 I felt the world inside me turn another day older
