

Farewell

Guster

Who you talkin' to?

A wish that will never come true

You tried to beat gravity, now what can you do? Ahh, goodbye, farewell, tonight
Are you still consumed?

A wish can't make something untrue

You tried to cheat gravity, now what will you do? Ahhh goodbye, farewell, tonight
Fly with me, take my hands,
we are free

We can disappear from the others

Laugh with me, take my hand, we are free

We will disappear to the other
