

Color (feat. Jay Armstrong Johnson)

Todrick Hall

(Todrick Hall)

Everyday before today was never grey
Was always black and white until tonight yeah
I wasn't expecting ya
To have me seeing sepia
And shades of light
But it feels so right yeah The way you touch me
The way you hold me
My hearts about to burst
You are the first to really know me
I want to love but first I need someone to show me
Afraid to fall at first but that's the old me There's somethin' about you
That makes the skies blue
And whenever we're through
All I can do see is color
There's somethin' about us
When we're together
And whenever you're there
Everywhere I see color (Jay Armstrong Johnson)
Every second you can bet my hearts collecting
Little butterflies when I see those eyes yeah
When our hearts collide
I hope our world is a kaleidoscope
Cuz black and white
Never shine so bright yeah The way you touch me
The way you tease me me
I'm trying not to fall for you
But falling seems so easy
My heart was locked but boy
You got the key to free me
Invisible to love
But boy you see me There's somethin' about you
That makes the skies blue
And whenever we're through
All I can do see is color
There's somethin' about us
When we're together
And whenever you're there
Everywhere I see color (Todrick & Jay)

And maybe the world may never understand

Our kind of love(Jay)

Say, "That's quite enough."(Todrick)

But I'd fight for us(Todrick & Jay)

I like to be the kind of man

You like to love(Jay)

We got a right to love(Todrick)

And baby I like to love(Todrick & Jay)

You

Cuz you're my favourite you(Todrick)

There's somethin' about you

That makes my skies blue

And whenever we're through

All I can do see is color(Jay)

There's somethin' about(Todrick & Jay)

us

When we're together(Jay)

And whenever you're there

Darling I swear

I don't see color
