

# Hey Julia

Steve Carroll

Hey, hey Julia, you're acting so peculiar  
I know I'd never fool you in a million years  
A horn section you resemble and your figure makes me tremble  
And I sure would like to handle what's between your ears  
And you're a temptation to a man  
And I could not resist you and I won't if I can  
You're so unexpected and whatever you injected  
Made me feel how I felt when I sang  
Hey, hey Julia you're acting so peculiar  
I know I'd never fool you in a million years  
You're a strain on my eyeses and you're full of surprises  
Love materializes soon as you come near  
There's a sensation you create  
Robs me off my sleep and I've forgotten the date

My head started spinning soon as you started singing  
And like a fish I just froze to the bait  
Hey, hey Julia with your crazy sense of humor  
You turn fact into rumor soon as you come near  
A horn section you resemble and your figure makes me tremble  
And I sure would like to handle what's between your ears  
You're a temptation to a man  
And I could not resist you and I won't if I can  
You're so unexpected and whatever you injected  
Made me feel how I felt when I sang  
Julia, you're a danger just like giving sweets to strangers  
And I think it's time I took you in hand
