

# No One Knows But You

[Beth Nielsen Chapman](#)

I can almost feel you smiling  
From beyond those silver skies  
As you watch me, finding my way  
Here without you in my life No one knows but you  
How I feel inside  
No one knows  
No one knows but you I've come so close to believing  
All the echoes of the wind  
Brushin' my hair off my shoulders  
I feel you there once again No one knows but you  
How I feel inside  
No one knows  
No one knows but you And if there is some magic  
Some way around these stars  
Some road that I can travel  
To get to where you are I'll cry this empty canyon  
An ocean full of tears  
And I won't stop believing  
That your love is always near 'Cause no one knows but you  
How I feel inside  
No one knows but you
