

Overflow

Tenth Avenue North

Hands open up
Hands open up
Out of the dust, You created us
We are the breath of Father, Spirit and Son
We're free to breathe
We're free to moveLife is a gift that we give back to You
Life is our gift, we give back to You
You set our hearts in motion
You're alive inside us
Our hands open up (hands open up)
We are made in the image of a perfect union
We receive Your love
And overflow
We overflowIt's evident that we were meant
To live like grace is covering every step
So we can risk and we can fall
You're over and You're underneath of it all
Yeah, You're over and You're underneath of us all
Overflow
OverflowLet Your perfect love come and fill us up
'Til we can't help but overflow
Hearts in motion
You're alive inside us
Our hands open up (hands open up)
We are made in the image of a perfect union
We receive Your love
