

Spaceship

Puddle of Mudd

Yeah alright, yeah, yeah, yeahA long time ago in a galaxy far away stood
A base to come home, yeah
I'm in the floor and I got all the flavors you tasted
With sweat dripping down your little back'Cause all night long, said all night long I been thinking
About how to get your clothes on the floor
All night long, said all night long I been drinking
About how to get your panties on the floorSo let's get it over and just get naked
With sweat dripping down your little back
I'm a holy roller and I own the spaceship
So let me take you for a little ride, ride, ride
Yeah, yeah, yeah, yeah, alrightSo I've been on the go for so long
I can't stand up straight and now tell me
I'm in the floor and I got all the flavors you tasted
With sweat dripping down your little back'Cause all night long, said all night long I been thinking
About how to get your clothes on the floor
All night long, said all night long I been drinking
About how to get your panties on the floorSo let's get it over and just get naked
With sweat dripping down your little back
Now I'm a holy roller and I own the spaceship
So let me take you for a little ride, ride, rideCome on, come on, come on, yeah
You know I really wanna take you for a little ride
Come on, come on, come on, yeah
You know I really wanna take you for a little ride
You know I really wanna take you for a little ride
You know I really wanna take you for a littleSo let's get it over and just get naked, oh
So let's get it over and just get naked
I wanna give you everything I got
I'm a holy roller and I own the spaceship
So let me take you for a little rideLet's get it over and just get naked
With sweat dripping down your little back
I'm a holy roller and I own the spaceship
So let me take you for a little ride
Come on, come on, take you for a little ride, ride
