Crying Water

The Brand New Heavies

You'll be crying water water
You'll be crying water
You'll be crying water water
You'll be crying waterMy car's outside
But before I go I'd like to say
What's on my mind and why
You got to know I just can't stayIf it's true what they say
'Bout your good thing going awayThen you'll be crying water all alone
Soon as you realize that what you had is gone
And you'll be trying not to make it harder
So you'll be crying waterYou'll be crying water water
You'll be crying water
You'll be crying water water
You'll be crying waterNow you know you're wrong
But it's much too late to make it right
It won't be long
Before you understand this is goodbye'Cause it's true what they say
'Bout your good thing goin' awayThen you'll be crying water all alone
Soon as you realize that what you had is gone
And you'll be trying not to make it harder
So you'll be crying waterThen you'll be crying water all alone
Soon as you realize that what you had is gone
And you'll be trying not to make it harder
So you'll be crying waterAnd like a dying man without a drop to drink
On the desert sand in the burning heat
He thinks of all the days when his thirst was quenched
Now he prays for shade and just pretends'Cause it's true what they say
'Bout your good thing goin' awayThen you'll be crying water all alone
Soon as you realize that what you had is gone
And you'll be trying not to make it harder
So you'll be crying waterThen you'll be crying water all alone
Soon as you realize that what you had is gone
And you'll be trying not to make it harder
So you'll be crying waterYou'll be crying water water
You'll be crying water
You'll be crying water water
You'll be crying waterYou'll be crying water water
You'll be crying water
You'll be crying water water

You'll be crying waterYou'll be crying water water
You'll be crying water
You'll be crying water water
You'll be crying water
...
