Love Rush

54-40

Ooh, it takes you over, makes you want to moan
The fever attacks and you're ready to burst
Chills down the spine and you've ended the search
When lovers go deepDo run, do run, do run, do run, baby, you want to run wild
Do run, do run, do run, do run, baby, you want to run wildBreathe in your sighs, smoke is in your eyes
Your tongue is thirsting, her hands are searching
Giving you a heat that could burn a young man
When lovers go deepWhat it is is love rush, you can stay, make you wanna goDo run, do run, do run, do run, baby, you want to run wild
Do run, do run, do run, do run, baby, you want to run wildWhat it is is love rush, make you stay, make you wanna goDo run, do run, do run, do run, baby, you want to run wild
Do run, do run, do run, do run, baby, you want to run wildDo run, do run, do run, do run, baby, you want to run wild
Do run, do run, do run, do run, baby, you want to run wildDo run, do run, do run, do run, baby, you want to run wild
Do run, do run, do run, do run, baby, you want to run wild
