

# Trust

## Sevendust

When I hold my head down to the ground  
And I wish you were here with me  
Seems like you're always around  
I was blind to see, hey  
Too good to be true you can't stay with me  
I wish she was all I need  
And it's getting late and it's cold outside  
So cold, so cold  
Trust  
I've wronged you  
And steal everything from the truth  
Could we find ourselves walking through  
A field with no solitude? The pain goes on  
Insensitive to all your needs  
Did you ever wanna stay with me?  
Never try to put you down  
And I never wanna see you leave  
I still can't believe you're going to leave

I wish she was all I need  
And it's getting late and it's cold outside  
So cold, so cold  
Trust  
I've wronged you  
And steal everything from the truth  
Could we find ourselves walking through  
A field with no solitude? The pain goes on  
Trust, trust  
I've wronged you  
And steal everything from the truth  
Can we find ourselves walking through  
A field with no solitude?  
I've wronged you  
And steal everything from the truth  
Could we find ourselves walking through  
A field with no solitude? The pain goes on  
Trust, trust, trust, trust, trust
