

Watford John

Badfinger

You show me all your loving
Then you turn and tell me no
Open up your arms and let it go You give me all your kissing
Then you freeze and stop the flow
Open up your knees and let it go I don't want a Cinderella
I just want my teddy bear
I don't want a backstage Bella
I just want to take you there
Baby, won't you think it over?
Try and see my point of view
Let it go You show me all your loving
Then you turn and tell me no
Open up your arms and let it go
Let it go, let it go I don't want a Cinderella
I just want my teddy bear
I don't want a backstage Bella
I just want to take you there
Baby, won't you think it over?
Try and see my point of view Come on baby, won't you tell me no
Bop bop-a-lop do-wop
Let it go, let it go, let it go Let it go, let it go, let it go
Let it go, let it go, let it go
Let it go, let it go, let it go
Let it go, let it go, let it go
