

Break the Chain

2 Unlimited

Now it's time to break it
Come on, come on, come on, come on
Break it down I want you to break your chain, yeah
Make the right choices in life
You gotta do it now, you gotta do it now
You gotta, ah yeah, you gotta
2 Unlimited, break it, break it Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, fate is in your hands
Break the chain so nothing can hold us back We gotta break the chain and think of the main source
Do your job and take the right course
Don't let your mind don't play no tricks
In the world, a lot of things to fix Your life in the world goes up and down
But you gotta pay attention to stick around
Get this one thing straight in ya brain
Set your soul free and break that chain Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, fate is in your hands
Break the chain so nothing can hold us back Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, fate is in your hands
Break the chain so nothing can hold us back Your future is in your hands
Bass, bass
Br-br-br-brake your chain
And break that chain Come on, come on
Break it, break it
Come on, come on
Break it, break it
Let nothing stand in your way Now get yourself together 'cause the music makes you better
You gotta rearrange, stand up and make the change
'Cause if you don't, then you won't
And you never wanna see the perfect life in reality Can you see what I mean? Can you hear I what I say?
Can I break it? Oh yeah, yes I may
On a mission we go, sunshine or rain
Set your soul free, we gonna break that chain Break the chain, break it for me
Free your spirit, set your soul free
Break the chain, fate is in your hands
Break the chain so nothing can hold us back Break the chain, break it for me
Free your spirit, set your soul free

Break the chain, fate is in your hands
Break the chain so nothing can hold us back
