Lose Your Mind

Kodaline

Loosen up and lose your mind
You never know what you could find on the other side.
A hundred thousand butterflies
Floating in the orange skies above my head.
I wander lonely as a cloud
Floating high above the ground with aeroplanes.
I hear the sound of hummingbirds
The sweetest sound I've ever heard, I can't describe.Oh oh, I'm dreaming up a world with you
Oh oh, and all the things that we could doFeeling like a plastic bag
Spinning 'round but slowly going nowhere fast.
Waterfalls inside my eyes
Am I on the other side, am I dreaming?
Holding on to a dolphin's fin
He helps me swim where I can't swim, he's friendly.
Loosen up and lose your mind
You never know what you could find on the other side.Oh oh, I'm dreaming up a world with you
Oh oh, and all the things that we could doWalking on a tightrope wire
Dropping poison pills of fire, hypnotized
Euphoria will be here soon
Turn the lights down, let the answers fill the roomOh oh, I'm dreaming up a world with you
Oh oh, and all the things that we could doA hundred thousand butterflies
Floating in the orange skies above my head.
Loosen up and lose your mind
You never know what you could find on the other side.All of the things that made you feel better
You should write it all down and put it in a letter.All of the things that made you feel better
You should write it all down and put it in a letter.
