

We Are The Planets

StoryBots

We can see the whole Solar System from here. I think we can hear it from here too. We are the planets of the
Solar System

Different sizes for every one

The music never ends

We are such good friends

And we all orbit the sun SUN

Here comes the Sun rapping first on this track, from the beginning

I'm the center of the solar system, planets be spinning

Around me, so hot, I'm roasting, ya see?

Now I pass the mic to the planet closest to me MERCURY

Mercury! The smallest planet, small as Earth's moon (MOON: "Yo!")

I get super hot and cold and I spin very slow

VENUS

I'm Venus! I've got mountains and volcanoes that spray

I'm the same size as Earth but spin the opposite way EARTH

Yeah, I'm Earth, I'm the home to every boy and girl

(Sung by Stars) Such a beautiful, beautiful world MARS

I'm Mars, the red planet, I've got deserts and ice

And I've got two moons - nice - that's like one moon, twice! JUPITER

I'm Jupiter! the biggest planet, I'm humungous, gargantuan

I spin the fastest, rap the fastest, plus I'm handsome, BAM SON! SATURN

Oh please, I'm Saturn, check out my beautiful rings

Made up of billions of rocks, dust, and other things URANUS

I'm Uranus, I say that with pride, okay, I lied

I'm embarrassed 'cause I'm the only planet lying on its side

(Uranus lies on its side and the mic flies to Neptune) NEPTUNE

I'm Neptune, I'm cold, dark, windy and mysterious

I'm very stormy, so bring an umbrella - I'm serious ALL PLANETS ()

We're the planets in the Solar System

Different sizes for every one

The music never ends

We are such good friends

And we all orbit the sun Well, we are done exploring the Solar System. I am thirsty. Let's explore the rest of the
Milky Way Galaxy.
