

Automatic Lover

Teddybears

got my outsides and my downsides, you got your earthcoins and your lambsides
You just have to thirst my button, cos I can take it like no other

Cos I'm your automatic lover
Cos I'm your automatic lover

From the outside to the inside, from the outside undercover
I pull myself into your mother, cos I can take it like no other

Cos I'm your automatic lover
Cos I'm your automatic lover

I'm you automatic lover, I can take it like your mother

Cos I'm your automatic lover
Cos I'm your automatic lover

I got my good sides and my bad sides, is it to take all dynamic
I got no problem with my punkshot, cos I can take it like no other
I'm your automatic lover, I'm your automatic lover

Cos I'm your automatic lover
Cos I'm your automatic lover
Cos I'm your automatic lover (your automatic lover)
Cos I'm your automatic lover (your automatic lover)
