

Eighteen

Home Town Hero

You'll steal my heart, I'll count to three
You'll walk away, just like on TV
You left enchanted You'll steal my heart, I'll count to three
You'll walk away, just like on TV
You left enchanted, you left enchanted All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it You'll steal my heart, I'll count to three
You'll walk away, just like on TV
You left enchanted, just what I want, what I want
You left enchanted All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it You'll steal my heart, I'll count to three
You'll walk away, just like on TV
You left enchanted All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it All those things you said to me
Well made me cry myself to sleep
And kinda think I like it
Pretty sure I liked it
