

# All and Everyone

## Small Feet

It moves it's hand across your chin  
Like, what is it made of?  
The new friend and end up feeling sorry for yourself  
Oh, what does it begin?  
Like, what are you afraid of? Come say "hi" it doesn't bite  
Or, it didn't before Your sons and daughters will never be safe  
They'll wake up wishing everyone and all away It looks you down in the eye  
Like, what are you made of?  
Stick your hair out in the stand, no way  
They're killing unicorns for fun  
They're evil as they come, come Come say "hi" it doesn't bite  
Or, it didn't before  
Your sons and daughters will never be safe  
They'll wake up wishing everyone and all away
