

# Jada

## Paloma Ford

[Verse 1]

Queen Latifah

'Bout to set it off in the motherfucker right now

Michael Jackson

Swear to God, I got the club on right now

I know it's my time and I won't be long now

And it won't be long now

Man, I swear it ain't no days off

Even on my days off, every day a work day

Tryna handle all the shit I got on my plate

But they keep bringin' entrÃ©es

Keep it 3 thou' like AndrÃ©

Tryna do it big like BeyoncÃ©

Cause girls love BeyoncÃ©, girls love BeyoncÃ©

But it's okay[Hook]

Cause one day they gon' love me

One day they gon' love me

One day they gon' love me

Love me, love me, yeah

Cause one day they gon' love me

One day they gon' love me

One day they gon' love me

Love me, love me, yeah[Verse 2]

Jada Pinkett

'Bout to set it off in the motherfucker right now

Baby, let's run away together

We can hide of them now

Nobody gotta see us, see us

No, they can't come between us, 'tween us

When you and I get together

It'll be fireworks [?]

[?] do they put you first?

Like I do, I do, baby

Like I do, I do, baby

I know it'll be okay[Hook]
