

# Wild Heart

## Luba

I need some space  
I need some open air  
    to breathe  
    got to have it  
    got to fill my soul  
        and I  
    never knew that it was  
        in my blood  
I know it might sound silly  
    but I  
    would never deceive you  
        but it stings  
        like a thorn  
        in my side  
    can't help it now  
    can you feel it pound  
    can you hear the sound  
        of my wild heart  
        [chorus]  
    beat like a whisper  
    beat like a drum  
    beat in a place  
    as big as the sun  
    and I will return  
    if you let me run  
I'm a wild wild one  
I need some grace  
    I need some  
        understanding  
        got to have it  
    got to fill my soul  
    and I never knew  
        that it was in my blood  
I know it might sound silly  
    but I  
    would never deceive you  
        but it is something more  
        than just a wild wreckless  
        upheaval

and it stings  
like a thorn  
in my side  
can't help it now  
can you you feel it pound  
can you hear the sound  
of my wild heart  
repeat chorus  
beat like a whisper  
beat like a drum  
beat in a place  
as big as the sun  
and I will return  
if you let me run  
I'm a wild heart  
Oh, I'm a wild heart  
Yes, I'm a wild heart  
Hey, let me run  
let me run
