Haunt Me

Sade

Haunt me in my dreams if you please
Your breath is with me now
And always it's like a breeze
So should you ever doubt me
If it's help that you need
Never dare to doubt me
And if you want to sleep I'll be quiet like an angel
As quiet as your soul could be
If you only knew you had a friend like me
So should you ever doubt me
If it's help that you need
Never dare to doubt me
