

Crash Push

Robi Draco Rosa

Crash, would you like me to forget myself and lose myself in you
Push, just one push will do when I'm overboard drowning in you I hear a whisper slowly and soon our lips will
be near

In between the day and night I step into the blue twilight
Catch me, darling catch me Hold me back I think I'm falling over you, what did you do?
Help me now, I'm losing me into you, what did you do?

What did you do? Walk, I walk a line that leads to you, waiting, anticipating
Desire has no safety to lead you on the road, going crazy I hear a whisper slowly and soon our lips will be
near Hold me back, I think I'm falling over you, what did you do?

Help me now, I'm losing me into you, what did you do?
What did you do? I hear you whisper darling, darling
In between the day and night I step into the blue twilight
Catch me, darling catch me Hold me back, I think I'm falling over you, what did you do?
Help me now, I'm losing me into you, what did you do?

What did you do? What did you do?
What did you do? What did you do? Help me now I'm losing me into you, what did you do?
What did you do?
