

# Handjobs For The Holidays

## Broken Social Scene

Let me take you on, we'll get high just a little  
Try to surface the calm, we don't come inside  
Has it brought you closer to this?  
Yeah, has it brought you closer to this? And is it coming alive? Try to believe it  
Was the question a point? I don't want your love  
Has it brought you closer to this?  
Yeah, has it brought you closer to this? We've got eyes that leave us in places we don't see  
We've got eyes that leave us in places we don't see Let me take you on, we'll get high just a little  
It kinda takes the joy away, we don't come at all
