

Think

Chaos UK

When you hear the news
What makes you think?
Do you make your own views,
Do you look for the link?
Does it really matter what you say?
Will it really matter at the end of the day?
You like to think we think
We like to think you think
Think we think
Think you think
We're gonna get older
Quicker some day
But does it have to shape
What you say?
What you think
Or what you do
Is it really ever
Gonna matter to you?
Will it really matter
At the end of the day?
What you think
What you think or do or say?
