English

-
I donâ€™t need you, I will kick you
ah ah ah I wanna say good bye to you
Why â€“ without me, youâ€™re

a guy with no charm huh
Donâ€™t kid yourself please,
you donâ€™t wanna talking about

You believed me when I said
you were different than other guys
Go away, get out get out get out get out,
get out of my sight

When you said you were busy or anything else
I believed your lie
Go away, get out get out get out get out â€“
you played with me

I canâ€™t believe it oh oh oh oh oh oh oh oh oh
Are you out of your mind? oh oh oh oh oh
Now itâ€™s really over

A prettier girl than me,
a nicer girl than me
You wonâ€™t find a girl like that in your life ever again,
snap out of it fool

A prettier girl than me,
a nicer girl than me
There may be girls like that but theyâ€™ll never be yours
Fool, fool, why donâ€™t you know?

I was precious to you in the beginning
You loved me but now are you sick of me?
Go away, get out get out get out get out â€“
donâ€™t check anyone out but just go away

I canâ€™t believe it oh oh oh oh oh oh oh oh oh
Are you out of your mind? oh oh oh oh oh
Now itâ€™s really over

A prettier girl than me,
a nicer girl than me
You wonâ€™t find a girl like that in your life ever again,
snap out of it fool

A prettier girl than me,
a nicer girl than me
There may be girls like that but theyâ€™ll never be yours

Fool, fool, why donâ€™t you know?

Oh youâ€™re the one who chased after me,
Iâ€™m the one who accepted you
I accepted you, the loser,
and turned you into a hot guy
Your eyes that only looked at me
is now looking here and there, round and round
There wonâ€™t ever be
a person who will accept charm-less you, never

Now I really donâ€™t like you
Even if you kneel and beg oh

A guy better than you,
a guy hotter than you
Thereâ€™s a lot of guys like that,
theyâ€™re lining up before me right now

I didnâ€™t love you,
I only dated you because you begged me
Donâ€™t think about me, youâ€™re more pathetic
Fool, fool, why donâ€™t you know?

Ha i yah la ha i ya oh oh oh oh oh oh
WIll you snap out of it now?
