

# Hands + Hearts

## AamityMae

Close your eyes with me, start imagining  
A world full of love  
We can change the stars with our hands and hearts  
Make them shine on us  
But no, no, don't worry darlin'  
They won't stop staring, but soon they'll be caring  
Come from near and far with their hands and hearts  
Cuz it's time to stand upOh the world is changing  
And all I am saying  
Is you gotta believe  
I'm a drop of water  
but you know together  
we're the ocean deepThe time is always right to open up your eyes  
And be the flickering flame  
We can light the corners, shine through all the borders  
Deep down we are the same  
But no, no, don't worry darlin'  
They won't stop staring, but soon they'll be caring
