

black Ice - Hymn for Disco

K-OS

Sometimes the way we look at life can be too serious
Cuz were dancin by the pale moon light
I wake up in the morning and I get delirious
Cuz of something that I did last night
But then the neighbor came on to me
She said that life is more than we see
You've got to be the change that should be
So don't die, just try...
Were just some fool with the light song
Open your gun in two
And turn in up the moon
I play it cool till the night is over
When are you comin back
To save this heart of mine
Time to take it slow
Black ice, white snow
What if the truth is we don't really know
If so then life is a mystery
This could be then end of all history
But wait the sun rises in the east
And the world still spins three hundred and sixty degrees on its axis
This isn't the galactic practice
Of rhymin, cruises no beginning of ending of timing
Reminds like the sun to take your back off the wall
People in the party in the light game show
Once again be dummin down the e's off the globe
Once a definition of this thing called black
I had a premonition eighteen way back
That black is the color of the universe from whence we came
I wonder if my soul is on ice again
Who put the light song open your gun in two
And turn in up the moon
I play it cool till the night is over
When are you comin back
To save this heart of mine
